PROFESSIONAL EXPERIENCE

Magento Developer | Webential Technologies Pvt. Ltd.

Oct 2023 – Present | Full-stack delivery and technical leadership

- Manage the complete delivery lifecycle across requirements, architecture, estimation, development, testing, deployment, monitoring and production support. lead four developers through planning, code reviews, mentoring and coordinated releases.
- Work directly with clients to clarify requirements and demonstrate features, provide estimates and recommend technical solutions.
- Architected and delivered **Stornow Digital** Product, a Laravel and WordPress platform that provisions plan-based websites within minutes and centrally manages customization and support for **150+ sites** through Storman API integration.
- **Technical leadership-focused:** Recognized as **Employee of the Year** in January 2025 for leading the architecture and timely delivery of the complex Stornow platform throughout 2024.
- Independently developed and launched the **Paradise Kitchens** Shopify application, migrating the business from WordPress and supporting a catalog of approximately **15,000–20,000 products**.
- Built quote, consultation, catalog, inventory, order, shipping, notification, bulk-import and administration workflows with Laravel, Shopify APIs, App Proxy, webhooks, Microsoft Graph and Fastway integration.
- Raised Paradise Kitchens best Lighthouse performance score from **56 to 98** through rendering optimization, CDN usage, lazy loading, caching and script reduction.
- Architected the **Worthyparts CRM**, Extract 5,000+ contacts and their companies from more than 150,000 historical emails. integrated Chat GPT to extract, deduplicate, enrich and organize contact data previously managed through email and spreadsheets.
- Led Worthyparts migration from Laravel to React.js and Node.js and reduced the email-listing API response time from approximately **90 seconds to 100–200 ms** using database indexes, a dedicated preview-body column, query rewriting and cursor pagination.

Webential Technologies Pvt. Ltd. — continued

Additional production delivery

- Architected a production asset-management system for assets and fleets, centralizing maintenance, service, expense, registration, fuel, reporting and audit workflows with nightly and on-demand Linxio synchronization.
- Architected and developed a production timesheet platform that replaced spreadsheets with employee submissions, two-stage approvals, pay-period management, notifications, audit trails and payroll-ready CSV exports.
- Delivered solutions across **15+ Magento websites**, including custom modules, five platform upgrades, checkout customization and payment, shipping, ERP, CRM, loyalty and other third-party integrations.

Software Developer | Sinelogix Technologies Pvt. Ltd.

Apr 2023 – Oct 2023

- Developed and maintained large-scale Magento applications across catalog, cart, checkout, payment and shipping workflows.
- Integrated ERP, CRM and customer-loyalty services and developed custom modules, resolved integration and performance issues and produced technical documentation.

Magento Developer | iCreative Technologies Pvt. Ltd.

Feb 2023 – Apr 2023

- Integrated and customized third-party extensions and contributed to projects using Symfony, Shopware and Vue.js.

Magento Developer | Evince Development Pvt. Ltd. (CMMI Level 3)

Feb 2021 – Jan 2023

- Developed Magento 2 modules, themes, Page Builder components and cart and checkout customizations across product listing, product detail and CMS experiences.
- Built CodeIgniter administration functionality and REST APIs for mobile applications using PHP and MySQL.
- Researched Magento PWA implementation using ScandiPWA, GraphQL, React.js and Docker.

Software Developer | Codeash Web Solution & IT Training

Aug 2020 – Feb 2021

- Developed web applications using PHP, HTML, CSS, JavaScript and AJAX while applying Java and object-oriented programming principles.
